

LISTEN:

Gay men in their twenties discuss their lives, their futures, and **The HIV/AIDS Epidemic in DC.**

Thursday, December 4th

7:00 PM

HRC Equality Center

1640 Rhode Island Ave NW

HIV and AIDS cases among young men who have sex with men ages 13-24 from 2002 to 2007 were double that of all previous cases since tracking began in 1983 up to 2001.

Despite these increases, only half of all young adults under 25 are aware of their HIV status or have actively sought an HIV Test.

How can we best support young gay, bisexual, and transgender men who are HIV positive? How do we fight the secrecy and the stigma? How do we prevent new infections? **Join us for a frank conversation** with a panel of gay, bi, and trans men in their twenties as we tackle these important questions.
