## Join the Conversation

HIV is a virus that does not discriminate. **Nearly one in 10 District residents aged 55 and older have HIV or AIDS.** From 2001-2006, 245 new cases of HIV were reported among District residents aged 55 and older. There was an overall increase of 21% in newly report cases over that period of time.

- **Dr. Shannon Hader**, DC Department of Health HIV/AIDS Administration, will discuss HIV prevention issues for those 50 and older.
- **Dr. Linda Green**, Prince George's Hospital Center, will discuss HIV/AIDS treatment for those 50 and older.

These presentations will be followed by questions and discussion. Please join us and be part of this conversation. This event is free and open to the public.

*The Elder Think Tank is a program of the DC Center made up of a broad spectrum of volunteers. Our mission is to provide support and advocacy for the aging GLBT populations of the DC metropolitan area and those who provide services to them. The mission is accomplished through identification of needs and concerns, and provision or facilitation of education and training.
